(By Associated Press.)

Peking, China (Wireless to the Associated Press), July 17.—Fighting between troops of the rival factions occurred today at Kwanhun, 30 miles south of Peking. Numbers of wounded are arriving here.

The city itself is quiet but wire and all rail communication with Tien Tsin has been interrupted.

DEEP INTEREST
IN THE SECOND
CLASH OF YACHTSThousands Crowd Bay to Wit-
ness Second of ClassicsBoth Yachts Trim and Fit For
Difficult Task Ahead Of
Them.

(By Associated Press.)

Sandy Hook, N. J., July 17.—Interest in the international cup races stiffened today. Sir Thomas Lipton having won the first race, Thursday, New York Bay was blocked today with boats bearing thousands to witness the second classic of the 1920 series.

Under racing rules, the day's contests will be a triangular affair, starting and finishing at Ambrose Lightship. Whereas in Thursday's race there were two fifteen mile legs, today there will be three each of ten miles.

The addition of another turning point is expected to add interest since the race developed into a drifting match, which, as such continued Thursday until Resolute was forced to withdraw.

Shamrock IV, with two more victories to win if she is to win America's cup, and Resolute with a duty of taking three races, both swung at their mooring, trim and fit and ready for the race today.

ARREST OF FAIR EGYPTIAN PRINCESS

Princess Della Patra.

Princess Della Patra, of Alexandria, Egypt, recently travelled from New York to San Francisco in the custody of two detectives to answer the charges of embezzlement and grand larceny brought by Erich Buehle. The young woman whose beauty is of the scintillating variety, emphasized by diamonds and clothes which typify the highest art of the fashionable designer, is accused by Buehle of having won his heart and wealth, subsequently failing to keep a promise to become his bride.

nized Labor.

(By Associated Press.)

Washington, July 17.—President Gompers and Secretary Morrison of the American Federation of Labor probably will take the stump during the coming political campaign in opposition to candidates for Congress regarded as unfriendly to organized labor Mr. Morrison said today.

He intimated the federation would concentrate its efforts on candidates for the house and senate rather than on the head of the party ticket.

The federation however has been baring for campaign purposes the record of the stand on labor legislation taken by Senator Harding in the Senate by Governor Cox when he was a member of the house.

(By Associated Press.)

Berlin, July 17.—A semi-official statement relative to the decision of the German delegation at Spa to deliver two million tons of coal per month to the Allies was issued here tonight.

"No other decision was possible after Marshal Foch had been summoned," it declared.

"On one hand, there was invasion of Germany, with its incalculable political and economic consequences; and on the other, a reduction by eight percent of the coal supply to German consumers, with the possibility, however, of remaining master in one's own house."

FAMOUS COACH

(By Associated Press.)

Washington, July 17.—Friends and supporters of Governor Cox of Ohio arranged for a big demonstration in honor of the democratic nominee for the presidency on his arrival here today for a conference Sunday with President Wilson.

Assistant Secretary of the Navy Franklin D. Roosevelt headed the welcoming delegation.

The conference with President Wilson tomorrow in which Mr. Roosevelt will participate will be held on the south portico of the white house, weather permitting.

During his convalescence the president has spent much of his time there.

SUGAR SHIPPED
TO UNITED STATES

(By Associated Press.)

Tokio, (By Mail).—Owing to scarcity of sugar in America large quantities of Formosan Java crop are being exported to the United States by the Japanese refining concerns. During March and April about 40,000 tons of Java sugar were sold to foreign merchants and a further supply of nearly 60,000 tons of Formosan and Java sugar have been contracted for by the American merchants. The goods are to be delivered at New York, Seattle, San Francisco and other ports.

BONE IN THROAT FATAL CINCINNATI—George Hale, 47, a patient at the General Hospital, died from blood poisoning as the result of a beefsteak bone lodging in his throat two weeks ago. Surgeons found two pieces of bones went down in his throat, the walls of which were badly lacerated.

(By Associated Press.)

Los Angeles, California, July 17.—Four earthquake shocks of varying intensity formed the total of yesterday's seismic disturbances here; and although the last one came after six o'clock, the city had resumed practically its normal aspect before bedtime.

The physical marks left by the quake, while many, were relatively slight. No one, so far as could be learned was injured by the tremors, but it brought in its train some scores of slight hurts due to falling objects.

No accurate estimate of money damage or physical injuries will ever be made, the authorities believe, because scores of minor hurts and losses will go unreported.

Sandy Hook, July 17.—Resolute crossed the starting line of Shamrock Fourth today in the second international cup race. The delayed starting signal was blown at 1:45 p. m.

Capt. Chas. Adams, second, skipper of Resolute won all the honors at the start.

Resolute crossed at 1:45—10 and Shamrock followed at 1:46—5 at 2:30 Resolute had the race well in hand. The wind was moderate and here and there a ruffled patch could be observed on the water.

Resolute at this time was leading by a quarter of a mile being to windward but somewhat astern of Shamrock.

DISSOLUTION
OF CONTRACT
WAS ILLEGAL

(By Associated Press.)

Columbus, July 17.—The dissolution of a contract between a school board and one employed as superintendent and payment of a sum of money by the board is illegal according to an opinion given today by Attorney General Price to the state bureau of inspection.

The opinion was given in connection with a controversy between the Marion school board and the Supt. of Schools. The Superintendent is said to have agreed to terminate his contract upon payment of \$2,000.

WELDING DEVICE ADVANCEMENT

One of the greatest welding devices of the age has been seen in action at the workshop of Wilbur Morgan on South Fayette street since the installation of the outfit some time ago. It is just now coming under prominent notice due solely to the part it has played in making needed repairs for machinery.

The welding device is an oxy-acetylene torch of same design with hitherto welders were accomplished in great shipyards of America during the World War and the performance of which steel men themselves could hardly believe when it was first used. Any broken steel part, no matter how large or how unwieldy, has been welded under the skilful touch of the young mechanic. One of the great steel beams of the county road roller was broken several weeks ago and the road men were fearing that a long tie-up would result, but it was made stronger than new under the torch and the almost impossible was done in repairing it.

Parts of machinery essential to industry in various shops of the city have been repaired in the Morgan shop recently and have saved loss of time and a trip in various industries.

RECLUSE SUICIDES BY USING A ROPE

Joseph McKinley, recluse who for many years had made his home in a car on the lower Gwynne farm in Madison county, ended his life by hanging himself to a rafter in his place or abode, and his death, everything indicated had been slow and tortuous as his toes were touching the floor.

His body was found Friday by a small boy. Burial in the Mt. Sterling cemetery Sunday.

BOTH DESERTERS HAVE BAD RECORDS

Both of the soldiers arrested in this city by Detective Lincance and taken to Camp Sherman, from which place they had escaped earlier this week, have records that are not at all enviable.

The Chillicothe News, referring to the men, says:

"This is Piliwant's second escape. Some months ago, he struck a sentry in the head with a coal shovel, knocking him unconscious. He was to have appeared before a courtmartial, Thursday, to answer to a charge of desertion. Piliwant is suspected of having deserted his organization while in the line in France but this has not yet been proved. Returning to this country he deserted the army at Camp Dix, N. J. It is for this offense that he will be tried. Burkheimer is a deserter from the artillery at Camp Taylor, Ky. He was captured at Waverly, this week."

CALLS ATTENTION TO IDEAL WEATHER

William Arthur, United States Weather Observer, has brought to notice the almost perfect growing conditions during the last thirty days from June 15 to July 15.

During the thirty days coming in halves of the last two months there have been 14 without rain, July 1, 2, 3, 4, 5, 9, 12 and 13 and June 16, 18, 25, 26, 27, 28 and 29.

During the other days rain has been interspersed at the right moments and several days have been cloudy, thus making the growing conditions most favorable, he asserts.

SMALLEST FREIGHT TRAIN IS OBSERVED

One day this week there passed through this city on the Pennsylvania railroad one of the smallest regulation freight trains ever deserving of the term. It was made up of one engine, full size, a box car and the caboose.

The "train" was westbound and was running on regular schedule. The reason given for the size of the train is that it was partly due to the car shortage and partly to the fact that there was nothing to haul in box cars.

IS PENSIONED

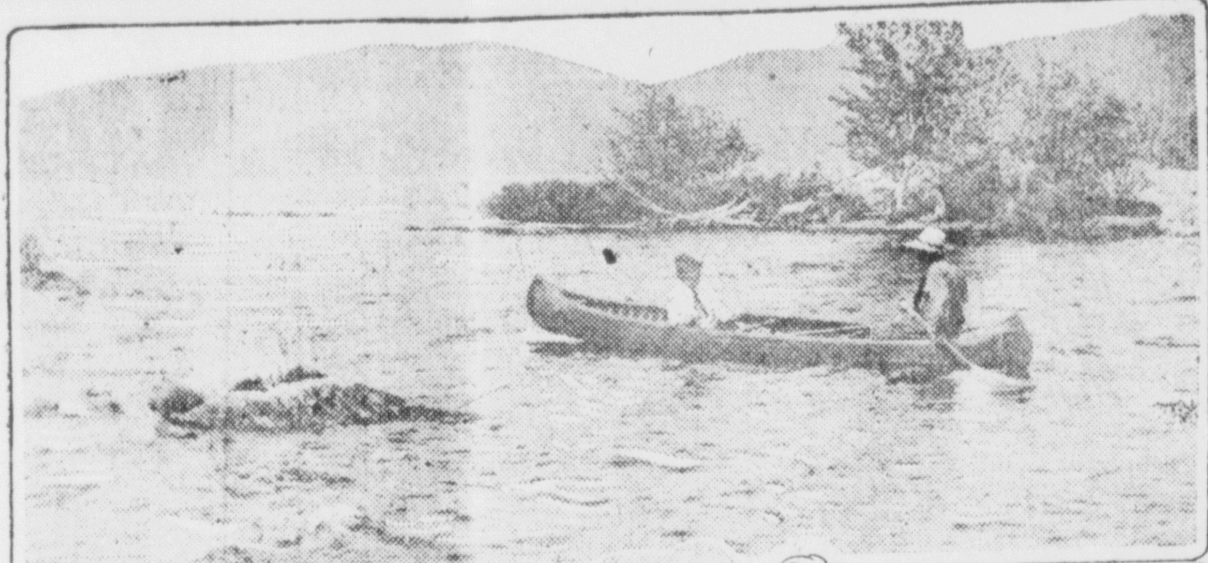

Mrs. Julia A. Loyd of Jeffersonville, was notified that she had been granted a pension by a special Act of Congress beginning April 1st, 1920 with back pay, on account of her husband, Milton Loyd, Co. K 22 Ohio Infantry. The claim was handled through John T. Oatneal.

"FISHERMAN'S LUCK" IN THE BEAUTIFUL LAURENTIANS

IN THE LAURENTIANS

There are 3,500,000 acres of beautiful lakes in the vast province of Quebec within easy reach of Montreal and Quebec, and most of them are well stocked with trout and bass. In streams like the Cache river are huge salmon trout and gray and speckled trout. The lakes are almost numberless and many of them have no names. Hidden in the recesses of the beautiful Laurentian mountains they furnish splendid sport for the fisherman who loves to camp in the open far from cities and towns and have plenty of fine fish when "chow time" comes.

Among the hills, 124 miles northwest of Montreal, Lac Nemineque is far enough away to be little exploited. This is the largest body of water in the Laurentians, being 35 miles in circumference, and in the network of waterways that surround it are red trout, gray, brook and salmon trout. The scenery is beautiful and even on the warmest day a cool breeze stirs the surface of Lac Nemineque.

But when one undertakes to pick out a splendid place for fishing, there is plenty of choice between Montreal and Mont Laurier, St. Jovite, Lac Mercier and Labelle, named in honor of Father Labelle, a missionary who was the white pioneer of the whole Laurentian region, are popular centers for fishermen and lovers of the woods.

Two miles from Lac Mercier is Lac Tremblant, near which is Mont Tremblant, 2,500 feet high, which is said to quiver mysteriously at certain hours. Lac Chapleau is noted for its big fish.

Within the past few years the Laurentians have been a favorite camping place for various organizations, including the Y. W. C. A., the Provincial Boy Scouts, the Y. M. C. A., and others. One camp on Lac Archambault is 27 miles from the railway, and the boys in this camp have actually discovered and named about 100 lakes. Two miles north of this lake civilization ceases, and from there north the keen, young boy explorer and his big brother and father may wander for weeks and even months before the shores of Hudson Bay are reached.

FUNERAL SERVICES MRS. WILLIAM GIBSON

Funeral services for Mrs. William Gibson, who passed away at midnight Tuesday, were largely attended Friday afternoon at the home of her daughter, Mrs. Miller Mintern, on So. Main street, by many relatives and scores of friends from this city and the former home, Bloomingburg.

Rev. Wm. Boynton Gage, pastor of the First Presbyterian church officiated and spoke of the long Christian life of Mrs. Gibson her love of her family, and her devotion for her friends. At the close he read the hymn "Rock of Ages" a favorite of Mrs. Gibson, who before ill health prevented was a regular attendant at the Presbyterian church, of which she was a member.

There was a great profusion of flowers. A long line of automobiles followed the casket to the Bloomingburg cemetery where interment was made.

The pall-bearers were the three sons: Walter of Norwood; Joseph of Rockford, Ill.; Roy of Pittsburgh; and three W.C. Gibson of Frankfort; Charles Gibson of Newark; and W. J. Mintern of Canton.

USES SHOTGUN UPON HORSES

An affair which has been creating considerable interest in northern Fayette county during the past few days has reached the ears of the Humane Society of the county, although no formal charge has been filed up to the present time.

It seems that horses belonging to H. E. Rader, residing in Paint township, broke from their pasture lot or were upon the highway and entered a field of a neighbor, who became angry at the presence of the horses, and, according to the reports reaching the Humane Society, used a shotgun, inflicting injuries to the animals.

It is also understood that the man using the gun later realized the seriousness of the offense and made good the damages inflicted.

THE ORIGINAL PUNCTURE PROOF TUBE CAN BE BOUGHT NOW. WRITE L. E. DAY, VAN WERT OHIO.

MAYOR RECEIVES NOTICE OF APPEAL

Mayor O. W. Creath of Bloomingburg has received notice that the Washington Gas and Electric Company has filed with the Ohio Utilities Commission an appeal from the rate ordinance for gas recently passed by the Bloomingburg Council. He also states that the Washington Gas and Electric Company has offered to give bond in the sum of \$15,000.

A hearing of the appeal has been set by the Commission for September 30th in Columbus.

Mayor Creath announces that he will go to Columbus Monday morning to investigate the matter more thoroughly and to hold consultation with the officials.

Yes, Your Milk Will Be Bitter With the Taint of Rag Weed

There's no getting around the fact that Milk if it is not purified (pasteurized) will taste of whatever the cows eat. Why should you be compelled to continue its use? Here's a way out—

In the first place we are careful in selecting our supply. As before told in these advertisements, the best is none too good for our patrons, and we do not hesitate to discontinue a source when it does not come up to our standard. We make individual tests of each producer's milk and are always in position to know its condition.

After that, we perfectly pasteurize the milk, which minimizes the taint of weeds or other undesirable food for cows; makes the milk absolutely pure. Then it is placed in sterilized bottles and capped automatically. That is why our milk keeps longer and is free from "bitterness" or other foreign tastes.

The Fair Price Commission

There may be some wholesome principles, underlying the plan of action which the fair price commission has inaugurated in Ohio, the benefits of which are not glaringly apparent in the result, thus far, obtained.

We must hope so because the effect of the commission's work, hereabouts at least, has not resulted, nor does it give promise of immediately resulting, in any appreciable swelling of the pocketbooks of the consumers.

Not many years ago one of the great political parties, when the protective tariff was the acknowledged "paramount issue," promised that, if successful at the polls, the tariff schedules should be revised. That party was successful in the elections and kept its promise to revise the tariff schedules, but the revision was upward and not downward as everyone, aside from a few spellbinders of the opposing political party, supposed it would be.

Thus far the fair price commission seems to have adjusted its compass with the needle's attraction fixed toward the dealers instead of toward the consumers.

It is not taking a pessimistic view of conditions to acknowledge a belief that, in all probability, the present attempt to control prices will result in just what other attempts of the same kind have resulted in—nothing.

We are inclined to expect too much from the government in fixing our living expenses, anyway, when after all is said and done price fixing can only be done by the people in the curtailment and regulation of their expenditures.

We must not be too much disappointed when prices continue at, or rise to, totals fixed by supply and demand and the orders of the commission instead of being what we want them to be in accordance with basic and unchangeable laws of trade.

Go A Little Slow

Developments in Mexico, since the overthrow of the Carranza government and the success of Obregon and his associates have not been such as to inspire so great a confidence, for future peace in that troubled land, as to justify recognition of the new regime by Washington.

The individuals now holding the reins of power have made high sounding resolves and promises for the future, but they have not yet proven their trustworthiness either in honest intent or in ability to handle affairs in Mexico.

The Washington government will be besieged by American citizens who have large personal interests to be subserved, to recognize the Obregon de facto government at once, but those powerful individuals and concerns should not be permitted to rush this nation into a new deal which may soon be regretted.

Certainly we have had enough unhappy and costly experiences with Mexico and Mexicans during the last decade to require proof of both honesty of intent and ability to do as promised, from those who ask recognition and aid of this country.

The Real Optimist

The latest crop report estimates, issued by the federal government, are far more encouraging in the prospect they present.

Both in acreage and present condition, taking the nation as a whole, we are well up to an average. The American farmers, in spite of the severe handicaps which unusually unfavorable spring weather conditions imposed and the serious shortage of labor, have succeeded, it is apparent from the reports, in starting the needed crops.

All of which goes to prove again a fact we all know, if we would stop to think, that the American farmers, no matter how they talk at times, are the greatest optimists we have. They never stop their work, they never shut up shop and quit no matter what the conditions. They go right ahead and work every minute they can with all the help they can get (and without any, if help is unobtainable). They never shirk because prices are not guaranteed or because the market looks bad. They do the work and produce.

They may talk like they were discouraged at times but it is only talk and as "actions speak louder than words" the farmer is no quitter, and no pessimist. He is an optimist—a real one—and his work proves it year after year.

POETRY FOR TODAY

A SMILE

Its mighty strange what a smile can do
When the world seems gray and you're feeling blue;
Just a bit of light in a gloomy vale
That leaves the world a clearer trail.
When you've done your best, and it all comes wrong,
A smile just seems to help along;
It makes you feel not all's so bad
If someone acts the least bit glad.

When you start the day with a cheery smile,
Though your work seems endless, mile on mile,
It's queer how quickly it disappears,
Allying all your useless fears.

Somehow or other, the chap who smiles,
The one who calmly bears his trials;
The one who smiles where troubles begin,
Is the chap who's doubly sure to win.

HAD HIS MONEY WELL HIDDEN

(By Associated Press)

London, (By Mail).—A Pole named Pietr Talls, travelling from America to Dantzg was taken ill recently in the Young Men's Christian Association hut, Waterloo Road, and removed to an infirmary. He had only two shillings and threepence in English money but hidden in his clothing he had 22 ten dollar gold pieces and paper money to the value of \$990. His shoes were found to be very heavy and when they were photographed by the X-ray, twelve large coins presumably \$10 gold pieces were found hidden between the leather and the soles of each boot.

COX PLEDGES HIS SUPPORT FOR SUFFRAGE

Tells Women Delegates No Reward Necessary For Aiding Suffrage.

(By Associated Press)

Columbus, July 16.—Members of the National Women's party were assured today by Governor Cox that he will do all in his power to bring about ratification of the Federal suffrage amendment by Tennessee.

His promise was given a deputation from the Woman's Party headed by Miss Alice Paul, chairman, late this afternoon, prior to his departure tonight for Washington where with his running mate Franklin D. Roosevelt he will confer Sunday morning with President Wilson.

The suffrage leaders had urged the Governor to use his influence in efforts to have the Tennessee legislature ratify the amendment and some of them intimated that unless he came staunchly to their aid he might expect little or no support from the women voters in the November election.

The suggestion by members of the women that the Governor might expect their votes in November if he should be successful in his effort to obtain ratification by Tennessee Governor Cox urged them not to preach the gospel that he should receive the votes of the women because he helped to give them suffrage. He told them there were things "more vital than regarding a man for a service which he has rendered in behalf of suffrage"

WANT BEAVER BACK IN STREAMS

(By Associated Press)

Concord, H. H. July 17.—An effort to re-establish the beaver in the streams and meadows of the White Mountains country from which it long since disappeared is being made by the Society for the Protection of New Hampshire Forests.

The Lost River Reservation is again the haunt of the dam-building animals, four beavers having been liberated there as the step in an effort to return the amphibian architect to its former usefulness. Within the steep walls of the Kinsman Notch, through which tumbles Beaver Brook, a misnomer in recent years, the beaver will have its favorite topography in which to propagate and work under the foot hills of Moosilauke Mountain.

The animals set free were the gift of the state forester of Minnesota, who selecting them from a breeding colony at a state park situated at the head waters of the Mississippi. The beaver are descendants of a family introduced in Minnesota from Canada, which have multiplied and prospered there, and are now contributing to re-establishment of the species in another state.

RANDOM NOTES

SOCIAL : PERSONAL MENTION : CLUBS

The society calendar of the younger set has recorded no affair of such elaborateness and brilliancy as the dance given by Miss Edith Worthington in honor of her guests, Miss Evelyn Tinsley, of Cleveland, and Miss Helen Shurtliff, of Marengo, Ill., two of her classmates at the University of Wisconsin, on Friday night at Oak Lawn Park.

The most alluring of indoor festivities is rivaled at this season by out door affairs and the new park, as secured for a private party, proved ideal in every way. The large grounds, through which had been strung hundreds of Japanese lanterns had all the appearance of an enchanted fairyland, and the fascinating arrangement of the beautiful club house, with its liveried attendants, and large dancing pavilion, bright with incandescent lights and festoons of gay colors, under which pretty young girls and debonair men danced gayly, completed a scene all sparkle, life and beauty.

Miss Worthington charmingly endowed with social gifts and looking extremely pretty, her dainty figure and fairness effectively set off by a gown of pompadour taffeta, made with bouffant skirt and trimmed in apple green velvet ribbon, received her guests at the entrance of the pavilion, and introduced her attractive house guests. Miss Shurtliff, of the striking brunette type, wore flame colored organdie, with silver ribbons and silver slippers, and Miss Tinsley, a perfect blonde, was gowned in cream taffeta, flowered in blue. All three wore lovely corsage bouquets.

Mrs. William Worthing, wearing a handsome gown of dark printed voile with lace trimmings, and Miss Jean Worthington, girlish and sweet in blue organdie, assisted, also Hon. and Mrs. Charles A. Reid, and Dr. and Mrs. L. M. McFadden.

The dance was marked by novel and beautiful features, with favor dances, serpentine and confetti dances and the "sparkler dance" especially brilliant and lending picturesqueness to the vivid scene. The spirited dance music, furnished by the Park orchestra, only ceased when the guests adjourned to the club house and were seated at small tables in the large rooms and on the beautiful terrace for a perfectly appointed summer collation. Exquisite wicker baskets filled with pink and white snap dragons, roses and carnations, formed the center decoration for twenty-five small tables, at which the hundred guests were seated.

The artistic skill of the Buck Florists was also evident in a superb large basket of the same flowers. Bowls of delicious fruit punch were on taps all evening.

It was with great reluctance that the merry throng heard the strains of the closing waltz and their praise of the perfect ensemble, lavish hospitality and joyous evening was enthusiastic to the last degree.

The park management lent every possible assistance in the general arrangements for the success of the evening.

Those in attendance from out of town included Mr. and Mrs. William Westerfield, Miss Elizabeth Westerfield, of New Orleans, La.; Misses Helen Maynard, of Waterloo, Iowa; Helen Deale and Medith Bostwick, of Columbus; Kathryn Fisher, of Wilmington; and Kathryn Pore, of Jackson; Messrs. Ralph O. Lungren, of Chicago; L. D. Saxton, of Columbus; Gregg Carpenter and Doctor Lutz, of Mt. Sterling; Thomas Rogers and Maryon McKay, Wilmington; Girard Robinson, Mt. Gilead; William Smith, Xenia; Mercer Hufford, Cleveland;

Herbert and Joseph Preston, Bloomington; Willard Chamberlain, Earl and Carry Gidding, Milledgeville.

Mrs. George A. Robinson added to the galaxy of summer parties a charming tea Friday afternoon in honor of her sister, Mrs. J. Ward Holman, who is now making her home at Youngstown.

Both older and younger friends greatly enjoyed the opportunity of renewing acquaintance with the honor guest as well as the social pleasure of the tea.

Mrs. Holman was lovely in lemon colored argandie, trimmed in white organdie, with picture hat of jade green straw and georgette.

Mrs. Robinson, delightfully cordial was wearing orchid dotted swiss, with inserts of lace, and finished at the waist with white ribbon, piqued in black.

Miss Bertha Allen, of Circleville, wearing a pretty gown of blue foulard, was also in the receiving line.

Assisting in the dining room were Mrs. Charles F. Ballard, Misses Ruth and Mary Hagler, and Miss Bess Shoop poured at the tea table.

Garden flowers were used in decoration throughout the home and the central adornment of the tea table was a beautiful large wicker basket, in which were artistically blended yellow daisies, gladioli, white carnations, pink snap dragons, blue delphinium and fern.

Additional out-of-town guests were Mrs. Sidney Stewart, of Watonga, Okla.; Mrs. Robert Spangler, Salt Lake City, Utah; Mrs. William W. Westerfield, New Orleans, La.; Mrs. William Vail, of Niles, Ohio; Mrs. Conrad, of Newark, and Miss Grace VanWinkle of Youngstown.

The many friends of Miss Elizabeth Sheen will learn with much interest that she has accepted the position of instructor of music of the public schools in Delaware, and will return to Ohio this coming fall.

Mrs. Thomas Collopy gave a very pretty party Thursday afternoon for little daughter Kathryn and her sixth birthday at the Collopy home on East Temple street.

Thirty little girls spent the happiest kind of an afternoon in games and contests—their delight reaching a climax when they were invited to the dining room for a dainty lunch. Pink and white sweet peas, with a small birthday cake and six candles were used in the effective decoration of the table.

The little honor guest received a number of pretty gifts.

Mrs. Collopy was assisted by Miss Mabel Collopy and Mrs. Glenn Smith, Helen Breslin, of Lancaster, and Juanita Speaks, Newark, were out-of-town guests.

Mr. and Will Haines and daughter, Mrs. Maude Howland, of Bloomington, pleasantly entertained with a family dinner Friday in honor of Mr. and Mrs. Charles Peterson, of Crawfordsville, Ind., and Mrs. J. H. Jefferson, of Akron.

Mrs. Austin Tway, of Bloomington, entertained at an enjoyable dinner Thursday, honoring her daughter Mrs. Dane Parrett and family, Colorado, who are spending the summer here.

Seated with the hostess and honor guests were: Mr. John Tway and daughter, Miss Lizzie, of this city, Mr. and Mrs. William Durlinger, Mr. and Mrs. Homer Hutson and son of Yatesville.

The class of 1904 of the Washington High School have issued invitations for their first reunion to be given Sunday, July twenty-fifth at Cedar Hurst.

It will be an all day affair with picnic dinner at noon. The committee Mrs. Horace C. Ireland, Mrs. J. Herbert Chapman, Miss Myrtle McCoy, Messrs. Pearce Ballard, Ralph Penn and Frank S. Jackson are exerting every effort to make it a red letter day.

Invitations were sent to class members in seven different states.

They will be conducted by professors of French universities, the College of France and high schools and have for aim to present the modern aspects of various scientific theories, and to give a general view of modern French life, thought and science. Professor Gaston May, of the University of Paris, will hold three conferences upon "Franco-American friendship and mutual understanding."

WANT INDUSTRIAL USE OF ALCOHOL

(By Associated Press.)

Paris. (By Mail)—France's expenditure abroad of 1,500,000,000 francs last year for gasoline has aroused Parliament and the newspapers to a point where the government has renewed efforts to bring about industrial use of alcohol.

Experiments here have proved to the satisfaction of investigators that automobiles and other internal combustion engines may be operated satisfactorily upon varying mixtures of alcohol and petroleum products.

STORY OF PART PLAYED BY U. S. TOLD IN PAINT

(By Associated Press)

Washington, July 17—The story of the American Expeditionary Force is told in pictures on the walls of the National Museum here in a permanent exhibit just opened to the public.

Drawn from life in paint, pen and ink or pencil by American artists commissioned and sent to the front for that purpose the collection of nearly 500 studies detailing almost every phase of life in the army overseas is spread over the walls of a dozen great, well lighted rooms. It is a tale of stirring action which they disclose.

Among the scenes depicted are ruined French villages made sacred forever to Americans because of American blood freely given to tear them from German hands. There are the homely, appealing scenes from behind the lines with happy-go-lucky youngsters of Pershing's division in billets mixing among the people of France, the very old and the very young people. Here and there are grim reminders of the great tragedy in groups of huddled dead in wrecked enemy trenches over which over which the tide of victory had poured. Again, half glimpsed through a downpour of rain, a trudging, sodden infantry column is moving onward through a sea of mud as the artist saw it; or an endless line of weary gun teams drags forward the batteries to blast the road to triumph.

At one point the artist caught and held for his fellow countrymen the breathless tenseness of a forest outpost, peering through the leafy screen of his covert toward the enemy lines, his rifle hugged close with fingers clinched about the trigger; at another a slash light from a half opened door has painted on the screen of night just a hint at a column, tramping on to battle, just a young face or two in the line, weary, dirty but with jaws grim set with purpose. Again it is a hospital that has gripped the artists' imagination, a twisted, writhing form under the tumbled blanket with agony in every line and over it the steady eye of a surgeon or the merciful figure of an army nurse.

JAPAN FACES FURTHER TROUBLE

Tokio. (By Mail)—The financial depression and the depreciation of cotton yarn has placed the hosiery manufacturers of Japan in a critical position. Production in nearly all centers has either ceased or been reduced owing to the market prices of cotton yarn. The closing of the money market, which has cut the manufacturers off from their supply of funds.

Scarcity of exchange funds and the sudden advance of exchange rates consequent upon the depreciation of silver quotations, have helped to kill the export trade. Where the fall of silver prices has seriously effected Asiatic countries, the export of hosiery from Japan has been seriously interfered with the buying power of the merchant community coming to a standstill.

According to official figures issued from Nagoya the financial depression has dealt the severest blow to the hosiery industry in that district. The latest returns from the municipal office show that 115 of the 225 factories in Nagoya have closed their doors and 1,715 of the 2,050 knitting machines are idle. Thousands of operatives are out of employment and the Manufacturers Union has organized a support association for their relief.

BUSINESS MEN USE AIRPLANES FOR BUSINESS

(By Associated Press)

New York, July 16.—About 100 business men scattered throughout the United States more or less regularly fly in airplanes between their homes in the country, at the mountains or the shore to their city offices, according to an estimate of the Manufacturers Aircraft Association. The number of itinerant aerial "taxi-drivers" who carry passengers on short but remunerative flights is placed at some 300.

"There is a steadily increasing demand for aircraft of the commercial type," says a report made to the Association, "but, contrary to some published reports, the demand does not equal the supply. Factories now in operation in the United States could construct ten times the number of aircraft which optimists estimate would be required this year."

A trip throughout the country taken by representatives of the Association revealed some interesting uses to which aircraft are being put. "In Seattle during the tourist season," the investigators report, "a passenger airplane makes daily runs over and around Mount Rainier, flying at 20,000 feet, some 5,000 feet above the mountain."

"At the Santa Barbara seaside resort a flying boat is in daily operation over the channel, two of its most interesting passengers during the early part of this year having been the King and Queen of Belgium. Regular flights are being conducted over Southern California with a baby blimp."

"There is considerable agitation for an extension of the aerial forest patrol of California, which has been instrumental in protecting life and property from fire loss. The California Rice Growers' Association, which last year established a service patterned after the forest patrol over 16,000 acres of rice lands, has enlarged this service to guard double that acreage."

"Two flying boats are being used for transporting supplies from Seattle to a mining company in British Columbia."

THIN PEOPLE SHOULD TAKE PHOSPHATE

Says nothing like plain Argo-Phosphate to put firm, solid, stay there flesh and muscle and increased strength, vim, vigor and nerve force

Physicians claim there is nothing that will increase weight, strength and endurance like organic phosphate commonly known by druggists as argo-phosphate; it is inexpensive and is sold by all leading druggists everywhere under a guarantee to give satisfaction or money refunded. Weakness and thinness are usually due to starved nervous conditions.

Our bodies need more phosphates than are contained in the foods we eat.

If you wish a more rounded figure and plump well-developed arms, neck and bust in place of hollows you should simply take plain argo-phosphate as it builds up and restores run-down nervous conditions by phosphatizing the system. It transforms the appearance and an increase in weight is often times quickly produced.

The increase in weight also aids in improving the general health. Sleeplessness, nervousness, lack of energy and ambition quickly disappear.

Pale cheeks are changed to rosy ones and dull eyes become bright.

Miss Lena Brown of Atlanta, Ga., who only weighed 90 pounds reports that she gained 10 pounds in two weeks time and says argo-phosphate has made a different person of her and she has never felt better in her life.

SPECIAL NOTICE:—Owing to the fact that so many physicians and druggists are recommending argo-phosphate for relieving all nervous, worn-out, debilitated conditions and the unusually large sale for argo-phosphate there will be found in the market numerous substitutes for the genuine article. All imitations are inferior preparations and owing to its unusual flesh producing qualities it should not be used by anyone unless they desire to put on flesh and increase in weight. Dispensed by Frank Christopher, advt.

If a married couple continued to act after marriage as they did during courtship there would be fewer divorces.

BOY SMOTHERED IN BIN OF CORN AT BOWERSVILLE

Fred Thomas Meets Death and Rayburn Jones is Unconscious When Removed

Suction of Running Shelled Corn Drew Them Under in Huge Bin.

Playing about the top of a huge bin of shelled corn in the Greene County Elevator Company's elevator at Bowersville, late Friday evening, Fred Thomas, aged 12, and Rayburn Jones, aged 12, fell into the bin, were drawn beneath the surface and the Thomas boy was smothered to death while the Jones lad was removed in an unconscious condition and revived after some difficulty.

The tragedy occurred while the big bin of shelled corn was being emptied into a car and the suction from the running corn drew both boys to the bottom of the bin in a few seconds after they had fallen into the death trap.

Herman Bowermaster, another lad who had been with the boys, saw them fall into the bin and he hurried to another part of the elevator and obtained Milton Oliver, in charge of the elevator who shut off the flow of corn and leaping into the bin, dug his way to the forms of the boys by the aid of a scoop shovel. He was too late, however, to save the Thomas lad for the spark of life had fled.

The Thomas lad is the son of Clem Thomas and was one of six children in the Thomas family. The Jones lad is a son of Alfred Jones.

Oliver, in charge of the elevator, had warned the boys many times, it said, to beware of the machinery and bins about the elevator.

The funeral services of the Thomas lad will be held Sunday afternoon.

AUSTRIAN TREATY RATIFIED

Paris, July 17.—The exchange of ratifications of the treaty of St. Germain, which established peace between the allies and Austria, took place Friday in the clockroom of the Foreign office. CANNING SEASON OF FAYETTE PEAS COMPLETED FRIDAY

With a total pack of almost 40,000 cases, 24 cans to a case, the pea canning season at the Sears & Nichols canning plant came to an end Friday afternoon.

During the weeks that the plant has been in operation a total of 597 acres of peas was harvested. The yield, while not unusually heavy, was of the very finest quality, and General Manager H. J. Bliss is well pleased with the pack of the plant this year.

The late peas, consisting of 325 acres were of even better quality and of heavier yield than the early variety and averaged from one to two tons per acre, an average which is considered exceptionally good.

The close of the pea canning industry brings canning activities to an end until the sweet corn harvest when both the Sears & Nichols and The Fayette Canning Company will be in operation. Sweet corn is expected to begin arriving at the plants about the 20th of August.

WALTER TINKER LOSES BIG SUIT

ARGENTINE GETS STUNG ON WOOL

(By Associated Press)

Buenos Aires, (By Mail).—The cessation of the demand for coarse grades of wool for army uniforms and the refusal of average people, in spite of the high cost of living, to buy clothing made of the coarse grades, has left Argentina with more than 200,000,000 pounds of almost unsaleable wool on its hands according to a local manufacturer of woolen cloth, interviewed by La Nacion.

This huge quantity will be increased during the shearing season in July and August. As the production of wool in this country is growing year by year, the problem of selling the coarser grades is considered very serious. One reason for the situation is that formerly Argentine sheep breeders had thought more of the meat than the wool, with the result that their stock became mixed and the consequent wool coarse and not uniform.

LAY CONDUIT WIRES FOR SAFETY POSTS

In preparation for installing conduit wiring to the ornamental traffic zone posts which will be placed at three main street intersections in the uptown business district workmen Saturday removed a row of brick from the curb to where the posts will set.

One line of bricks from the street corner to the center was removed and the electric wires placed in steel tubes. The wiring will be completed by the time resurfacing work is started on the streets.

City Service Director, Tracey who has the setting of the ornamental safety zone posts in charge placed orders for the posts when notified of the legality of the action by City Solicitor Troy T. Junk, but has heard nothing of the date when they are expected to arrive. The posts are to be set at the intersections of Main, Fayette, and North streets with Court street.

GOOD EXAMPLE OF THE OFFICE SEEKING THE MAN

Peking, (By Mail).—A striking example of the office seeking the man, or rather pursuing him, is afforded by the present cabinet situation. Premier Chin Yun-peng, who became leader of the "Chihli" political faction after the death of former president Feng Kuo-chang, wants to resign but the president won't let him.

The ostensible reason of his desire to quit is the difficulty the government finds in financing itself. The real reason is said to be found in a contest which is in progress between the "Chihli" and "Anfu" factions, the latter being the military group.

For the third time the Premier has tendered his resignation and three times the President has refused to accept it, exhorting in lieu a leave of absence, each resignation bringing forth a new extension of the leave. In the meantime Admiral Sah Cheng-peng, Minister of the Navy, is reluctantly filling the post of premier.

Much political maneuvering is going on under the surface and at the moment it is regarded as probable that Ching Yun-peng will eventually resume his post possibly with some changes in the ministries upon which he is said to be insisting.

STATE OFFICIAL

Common Pleas Court Records Indicate Unusually Busy Year Ending June 30th.

Interesting Statistics In Divorce Actions Included in Report.

County Clerk of Courts, Ray E. Moots, has completed his report for the fiscal year ending June 30, showing the activities in the office for the year, and will file a copy of the report with the Secretary of State, as required.

The report shows that at the beginning of the year 255 cases were pending in the court and 173 new cases were added during the year, making a total of 428. 149 cases were disposed of, or not as many as filed, leaving a total of 279 still pending at the close of the fiscal year.

In the appeals court five cases were pending at the beginning of the year, seven new cases were filed and 8 disposed of, leaving four pending.

The statistics on divorces filed, granted and pending show that 16 were pending, 32 new ones were filed and 31 decided.

Fifteen of these cases were filed by the husband and 32 by the wife. Alimony was allowed to three wives. Seven husbands got divorce and four husbands' applications were dismissed. Fourteen wives obtained divorce and one wife was refused a divorce.

No murder cases were recorded and the number of criminal cases was not large.

Three old burglary cases were pending, two new ones filed, two convictions made and one nolleed.

Nine forgery cases were pending, three new ones filed two convicted three nolleed, leaving 7 still pending.

One grand larceny case was pending, four new ones were added and four convictions made. One arson case was filed and one conviction resulted.

Three persons were convicted for carrying concealed weapons.

WILL LAY ASPHALT
ON CHERRY STREET

Cherry street is to receive the first coat of asphalt paving before the resurfacing work is started on the up town streets of the city by the Andrews Asphalt Paving Company. It was announced at the company offices Saturday morning following the transfer of the scene of paving to that section.

Resurfacing work in the business district will probably begin Monday morning if completion of the Cherry street section is made in time.

It is the intention of the company to begin work up town on Main street.

CLUB IS PLANNING
MIDWEEK CONTESTS

An effort is being made by the management of the Washington Athletic Baseball Club to book a game with some team for next Wednesday afternoon and to inaugurate regular midweek games as was planned last winter.

In communication with Bainbridge it was learned from that team that it is not playing any midweek baseball and it will not be possible to stage the first of the Wednesday afternoon contests with Sammy Marks and his tribe of assistants. The management will not let up and will endeavor to sign a club in time to hold the opening game July 21st.

LIBERAL PARTY
IS GIVEN START

Chicago, July 17.—Another political movement, the Liberal Party, was launched today by former members of the Committee of Forty-eight who bolted from that organization.

Judge Arthur C. Wray, Mayor of York, Neb., and Allen McCurdy, keynote speaker at the Forty-eight Convention, head the new party.

The convention was confined to those persons, about 50 or 60 in number who signed its call, and all other Forty-eighters were excluded from the hall.

Lester Barlow, leader of the World War Veterans, attempted to make an address, but was invited to leave. He threatened to call still another convention.

"I never have seen so many nuts collected in Chicago as during the past few days," Barlow declared as he marched out.

BAKE OWN BREAD
IS SUGGESTION OF
OHIO FARM BUREAU

Columbus, O., July 17.—"Bake your own bread."

That's the advice of the Ohio Farm Bureau Federation, the Ohio Grange and other rural organizations. It also is urged by millers and others who buy Ohio wheat. The slogan is a companion of the other one, "Insist on Ohio flour," recently adopted by the several organizations interested in promoting wheat raising and the use of winter wheat.

That 56 per cent of the bread used in the United States is home-baked is the assertion of the Farm Bureau Federation. However, the ratio in favor of bakery bread is increasing, the Federation's figures show.

It is admitted by the Federation that home-baking is absolutely impossible in thousands of homes, and housewives in such homes are not urged to produce the staff of life eaten in their families. It is recognized, furthermore, that in many restaurants and hotels bread-baking is impractical. Such homes and institution are urged, however, to insist on Ohio flour in bread bought in stores and bakeries.

THRESHING SEASON
HAS BEEN OPENED

The threshing season opened at Bloomingburg Friday when the crops of two men were threshed on the first day. Jacob Henkleman and Lafe McCoy were the farmers to open the season and their yields were fair. One yield was fifteen bushels per acre while the other was somewhat more.

Machines near Bloomingburg and in the northern part of the county have started the season in earnest and many other farmers will have their crops threshed out during the next few days.

AIRPLANE LANDS
